EXPERIENCE

Mozilla Developer Network — April 2020-Present

- Contributing Writer at Mozilla developer network
- Collaborated and coordinated with other contributors to analyse the articles and contributed by rectifying them.
- Successfully enhanced and made >20 articles more readable and faultless till now.

PROJECTS

Smart Brain — May 2020

- Tools used Tachyons, React.js, Expressjs, PostgreSQL, Nodejs
- Built a full stack web app with user authentication using bcrypt with a fully-fledged database, it uses clarifai api for facedetection, used react to handle the component tree and expressjs for scripting the api.

https://smart-brain0708.herokuapp.com/

Keeper Clone — April 2020

- Tools used React.js, Bootstrap, and Jquery.
- Built a google keeper clone using react.js to handle the components tree and styled using bootstrap.

https://roshan0708.github.io/keeperClone/

Todo List — April 2020

- Tools used Nodejs, Expressjs, MongoDB, Ejs, Mongoosejs, and Bootstrap.
- Built a web application that comes with a fully-fledged MongoDB database, scripted using express.js and mongoose.js.

Restaurant Management System — April 2020

- Tools used Bootstrap and Jquery.
- Built a responsive and static restaurant management system using pure javascript and jquery, styled using bootstrap.

https://roshan0708.github.io/restaurant management system/

Blogging Site — January 2020

- Tools used Nodejs, Bootstrap, Expressjs, Ejs, MongoDB, Mongoosejs
- Built a dynamic and responsive blogging page with a fullyfledged database to store the posts, scripted using nodejs.

EDUCATION

Indian Institute of Technology (ISM), Dhanbad — *Int. M.Tech Mathematics & Computing*

School, Raipur
